

## **FUTURE WORLDS CENTER**

April 2020

FWC staff are now working from home indefinitely. We are continuing our projects in the safest and more effective way possible. Thank you for understanding and flexibility in this time.

**MigratED:** In February and early March, FWC conducted several media literacy workshops in schools across Cyprus. Students were engaged on the topics of diversity, inclusion, and digital tools. They will create participatory videos addressing Migration in Their Lives.

**GEGL:** Ongoing workshops in support of the LAPs round 2. We have also postponed the planned Summer School in Ghana that was supposed to take place at the end of April. We will let you know when we decide on a new date. In the meantime, if you are interested in participating in the summer school, please contact us.
