The Project:

Youth of the World is a project focused on creating inclusive youth led training for non formal education specifically for youth workers and secondly those involved in education of young people with the ultimate objective of generating social inclusion and the promotion of a multicultural society promoting high quality youth work. In this way, it will also be possible for youth workers to develop useful professional skills in the relevant sectors and boost the quality of their work.

A secondary objective of the project is to pass and share good practices on the use of **Global Education** and **Global Prospective**, especially to involve young people, youth organizations, school, and others stakeholders, in order to spread the awareness on this topic and stimulate the creation of new **Global Education Strategies** in the partner countries and all Europe.

Partnership:

ICSE&Co – International Center for Southern Europe

ICSE & Co. (International Center for Southern Europe) is a non-profit organization linked to the Department of Political Sciences of the University of Florence.
