

FUTURE WORLDS CENTER

March 2021

BARD Structured Democratic Dialogue: FWC and a New York University collaborated with the BARD/OSUN network and implemented an online SDD with a focus on systematic change within OSUN.

MigratED: This project will be ending next month, but we are proud of the accomplishments of this project. The participatory videos should now be on our YouTube page (linked Below) as well as on one of the projects main page. We will be having the final International Conference on April 6-7th. You will be able to register soon at the event on our facebook page.

GEGL: Global Education goes Local has officially ended. This 3+ year project focused on engaging smaller localities in Cyprus on Sustainability and Gender Equality. FWC is so proud of all the activates, outputs, and people we have connected with through this project. In the last 6 moths of the project we organized, in collaboration with our partners in the localities, 15+ activities. We held an International Summer school with participants from Cyprus, Ghana, Kenya, and more. With our project partners we also had our Final International Conference online. Thank you to everyone who has contributed to this project!
